German	B1

AI & TECHNICAL

AI CODING & AGENTS
AI-assisted prototyping, coding agents, multi-agent orchestration, LangGraph, MCP, RAG, evals, prompt design

LLMS
GPT/OpenAI, Claude, Gemini, Mistral, multi-model orchestration

LANGUAGES
JavaScript, TypeScript, Python, Swift, SQL

FRAMEWORKS
React, Next.js, React Native, Node.js, SwiftUI

DATA & PLATFORMS
PostgreSQL, Supabase, Pinecone, MongoDB, Grafana, Tableau

DEVELOPER WORKFLOW
GitHub, Linear, Jira, Asana, Attio, Notion

PEOPLE SKILLS

Technical workshops - Executive presentation - Stakeholder alignment - Customer enablement - Product feedback - Clear writing

CERTIFICATIONS

Project Management - Google
Backend Developer - Meta
Leading Teams - UIUC
Sales & CRM Overview - Salesforce

Klemen Kocic

I build AI-assisted developer workflows and multi-agent systems.
Coding Agents - Customer Demos - Technical Workshops - LLM Systems - Product Feedback

EXPERIENCE

Interaction Architecture Jul 2025 - Present
Luminous Group - Munich, Germany

- Designed and led ~20 AI capability-assessment workshops with CEOs and senior executives; built live demos, whiteboarded reference architectures, handled objections, and translated ambiguous AI goals into adopted workflows.
- Help build Luminosity, a multi-agent, multi-person production system where each user works with dedicated agents that coordinate through observable message-passing. Two years live; co-inventor on patents for human-agent collaboration architecture.
- Built internal tooling and agent-mediated workflows across Attio, Linear, GitHub and CRM/project systems to reduce coordination overhead without adding meetings.
- Author of seven essays on human-AI collaboration, turning deployment lessons into clear writing for operators, builders, and decision-makers.

Co-Founder Sep 2025 - Present
ViaVia - Munich, Germany

- Co-founded an AI product studio; lead hands-on product and technical architecture across data model, retrieval pipeline, multi-model orchestration, and deterministic code layers around LLM behavior.
- Shipping Charles, an AI strength-training coach built with Claude + Gemini orchestration, Pinecone retrieval, and six layers of filtering/evaluation before model context assembly.
- Prototype product demos and workflow automations from ambiguous user needs into working features, specs, and implementation paths.

Technical Lead Jan 2025 - Feb 2026
NHS Personal Training GmbH - Munich, Germany

- Led technology for a premium personal-training studio; co-developed a native iOS coaching app in Swift and a web platform for scheduling, plans, exercise libraries, invoicing and point-of-sale.
- Helped the coaching team adopt AI in daily work by turning "we should use AI" into specific, repeatable use cases people actually applied.
- Directed a team of 6 offshore engineers on Asana and Jira at a 78% on-time release rate across concurrent product streams.

Personal Trainer - Executive Clients Apr 2024 - Dec 2024
MTM Personal Training - Berlin, Germany

- Coached executives and founders one-on-one in a premium studio setting; built a network of 40+ German founders and CEOs through trusted-advisor coaching relationships.

Project Manager Feb 2022 - Feb 2024
MetaKing Studios - Stockholm, Sweden

- Ran a 10-person cross-timezone team on Asana and Jira launching BLOCKLORDS, reaching \$40M trade volume; cut deployment projection from 6 to 4 months at 97% sprint velocity.
- Introduced the Unity-to-blockchain smart-contract connection for Direct Sales (\$200K revenue) and built Grafana/Tableau dashboards for on-chain analytics.

Program Manager & Data Analyst Mar 2020 - Feb 2022
Seascape Network - Seoul / Stockholm / Lisbon

- Orchestrated 5 gaming project launches across Ethereum, Polygon and BSC; negotiated ~\$500K investor funding; analytics contributed to 30+ integrations and MAU growth from ~10K to ~56K.

EDUCATION

University of Ljubljana - School of Economics and Business 2019 - 2023
Bachelor of International Business

University of Seoul - Exchange 2021 - 2022
Business Administration

ISCTE Lisboa - Erasmus 2022
International Business
