LANGUAGES

Slovenian	Native
English	C2 Fluent
SerboCroatian	B2
German	B1

AI AGENTS & TECHNICAL

AGENT SYSTEMS
multi-agent orchestration, chains, routers, handoffs, memory/context design, human-in-the-loop approval

LLMS & TOOL USE
Claude, GPT/OpenAI, Gemini, Mistral, structured outputs, tool-use patterns, prompt design

RELIABILITY
RAG, Pinecone, evals, feedback loops, deterministic guardrails, filtering before model calls

LANGUAGES
TypeScript, Python, JavaScript, Swift, SQL

FRAMEWORKS
React, Next.js, React Native, Node.js, SwiftUI

DATA & PLATFORMS
PostgreSQL, Supabase, Pinecone, MongoDB, Firebase, Grafana, Tableau

GTM WORKFLOWS
Attio, GitHub, Linear, Jira, Asana, Notion, CRM integrations, dashboards

PEOPLE SKILLS

Product discovery - workflow mapping - founder / executive workshops - stakeholder alignment - clear writing - team leadership

CERTIFICATIONS

Backend Developer - Meta
Project Management - Google
Leading Teams - UIUC
Sales & CRM Overview - Salesforce

Klemen Kocic

I build AI-agent products that turn messy workflows into reliable systems.
Multi-Agent Platforms - GTM Automation - Product Engineering - RAG - Evals - Feedback Loops

EXPERIENCE

Interaction Architecture

Jul 2025 - Present

Luminous Group - Munich, Germany

- Help build Luminosity, a multi-agent, multi-person production system: each user works with dedicated agents, while coordination happens through deliberate, observable message-passing and explicit context propagation.
- Built internal agent-mediated workflows and integrations across Attio, Linear, GitHub and CRM/product systems to keep operations coordinated without extra meetings.
- Led ~20 AI capability-assessment workshops with CEOs and senior stakeholders; turned vague AI goals into concrete workflows, live demos, adoption paths and implementation priorities.
- Co-inventor on patents for human-agent collaboration architecture; author/co-author of seven essays translating deployment lessons into practical AI governance and system-design patterns.

Co-Founder

Sep 2025 - Present

ViaVia - Munich, Germany

- Co-founded an AI product studio; lead hands-on architecture across product data model, retrieval, multi-model orchestration, deterministic logic layers and LLM behavior.
- Shipping Charles, an AI coaching system using Claude + Gemini orchestration, Pinecone retrieval, session-by-session feedback loops and six filtering/guardrail layers before model context assembly.
- Built earlier AI products including ShipStack, a production framework for AI-native software with multiple AI departments and human approval gates; focused on making prototype agents repeatable.

Technical Lead

Jan 2025 - Feb 2026

NHS Personal Training GmbH - Munich, Germany

- Co-developed a native iOS coaching app and web platform for scheduling, training plans, exercise libraries, invoicing and point-of-sale; translated daily operations into product requirements.
- Directed 6 offshore engineers across app and web product streams; maintained a 78% on-time release rate while balancing user feedback, scope and implementation tradeoffs.
- Helped the coaching team adopt AI in daily work by turning "we should use AI" into specific, repeatable use cases people actually applied.

Project Manager

Feb 2022 - Feb 2024

MetaKing Studios - Stockholm, Sweden

- Ran a 10-person cross-timezone product and engineering team on Asana/Jira launching BLOCKLORDS, reaching \$40M trade volume; cut deployment projection from 6 to 4 months at 97% sprint velocity.
- Introduced the Unity-to-blockchain smart-contract connection for Direct Sales (\$200K revenue) and built Grafana/Tableau dashboards for on-chain analytics.

Program Manager & Data Analyst

Mar 2020 - Feb 2022

Seascape Network - Seoul / Stockholm / Lisbon

- Orchestrated 5 gaming project launches across Ethereum, Polygon and BSC; negotiated ~\$500K investor funding; analytics contributed to 30+ integrations and MAU growth from ~10K to ~56K.

EDUCATION

University of Ljubljana - School of Economics and Business

2019 - 2023

Bachelor of International Business

University of Seoul - Exchange

2021 - 2022

Business Administration

ISCTE Lisboa - Erasmus

2022

International Business
