

Klemen Kocic

Interaction Architect · Forward-Deployed AI · Multi-Agent Production Systems
 Munich, Germany | klemen.kocic@gmail.com | klemenkocic.com | linkedin.com/in/klemenkocic
 github.com/Klemenkocic

Summary

Co-architect of an internal **multi-agent** multi-person production system (30 agents, 5 machines, two years live); co-inventor on its **patents**. Hands-on across iOS, web, and **LLM** orchestration. Customer-facing delivery with ~20 CEO workshops and one enterprise rollout. Ship surgical AI: deterministic code where it matters, model where it has to.

Experience

Interaction Architect / AI Solutions Engineer, Luminous Group – Munich, Germany July 2025 – present

- Led capability-assessment engagements with ~20 CEOs and senior executives plus one full company. Helped them translate ambiguous AI goals into specific workflows their teams adopted, across dentistry, education, and sport.
- Built and operate **Luminosity**'s production substrate: agent provisioning, MCP tool servers, knowledge and context graphs, multi-machine rule sync, weekly automated intelligence sweeps (Firecrawl, RSS, Exa), automated video production pipeline (Remotion, ElevenLabs, ffmpeg), and team-coordination workflows across Attio, Linear, GitHub, and Slack.
- Co-architect of **Luminosity**, an internal **multi-agent** multi-person production system (30 agents across 5 machines, two years live). Agents coordinate via observable, deliberate message-passing, with isolated memory by default.
- Co-inventor on **patents** covering **multi-agent** multi-team coordination architecture.
- Co-author of eight published essays on human-AI collaboration at luminousgroup.net.

Technical Lead, NHS Personal Training GmbH – Munich, Germany Jan 2025 – Feb 2026

- Co-developed a native iOS coaching app (Swift, SwiftUI): real-time booking, progress tracking, trainer-client communication.
- Built the web platform covering scheduling, training plans, exercise libraries, invoicing, and point-of-sale, plus a bilingual corporate site and 5 partner portals expanding B2B reach.
- Coordinated 6 offshore engineers across concurrent product streams at 78% on-time release rate. Deployed AI into the coaching team's daily workflow with applied use cases.

Project Manager, MetaKing Studios – Stockholm, Sweden Feb 2022 – Feb 2024

- Shipped **BLOCKLORDS**, an online blockchain strategy game that reached \$40M in trade volume; led a 10-person cross-timezone team and cut deployment projection 6 → 4 months at 97% sprint velocity.
- Built the Unity-to-blockchain smart-contract integration for Direct Sales, generating \$200K direct revenue; shipped Grafana and Tableau dashboards giving leadership real-time visibility into game-economy health.

Program Manager & Data Analyst, Seascape Network – Seoul / Stockholm / Lisbon Mar 2020 – Feb 2022

- Shipped 5 gaming launches across Ethereum, Polygon, and BSC; managed Lighthouse, a fund-generating platform supporting 10+ external game developers; negotiated ~\$500K investor funding (~9 months runway).
- Partner-ecosystem analytics contributed to 30+ integrations and MAU growth from ~10K to ~56K.

Projects

Charles (Beta)

AI strength-training coach for iOS. Periodised programmes that rebuild session by session. Flutter + Supabase + pgvector (two-layer architecture), multi-model orchestration (Claude, Gemini), six deterministic filter layers wrapping the model.

Other shipped products

ViaVia (multi-city European travel, live) · Viadio (AI memory videos, live on App Store + Google Play) · CelesteAI (localised astrology, live) · ShipStack (production framework for AI-native software, internal at Luminous Group).

Skills

AI & LLMs: Claude, GPT, Gemini, multi-model orchestration, LangGraph, MCP, knowledge graphs, context graphs, Pinecone, pgvector, RAG, prompt design, agent architecture, evaluations

Engineering: TypeScript, Python, Swift/SwiftUI, Flutter, React/Next.js, Node.js, PostgreSQL, Supabase, pgvector

Solutions & Delivery: Workshop facilitation, executive presentation, technical scoping, presales, stakeholder alignment, CRM (Salesforce, Attio)

Education

University of Ljubljana, BA in International Business – Ljubljana, Slovenia Sept 2019 – June 2023

- Exchange semester at University of Seoul (2021–2022)
